So I think Senator Vickers contradicts his own philosophy by making that kind of argument but at any rate this amendment is just designed to keep the state on an even keel and to keep us consistent. If you enact the bill without this amendment, then you are going to have two different kinds of state aid being allocated on a completely inconsistent method. It won't be the first time we have been inconsistent but I suggest to you that there is no philosophic reason to make a distinction between equalization aid generally and the aid given in this particular bill. Thank you.
